EASTERN DATES TO MARCH 3

Congressional

WASHINGTON, Feb 28.—In the Senate the Vice President submitted the resolution of the Rhode Island and Virginia Legislatures ratifying the Constitutional amendments. They were referred to the Judiciary Committee.

Sumner introduced a bill to enforce the amendments to the Constitution declaring that the right of suffrage shall not be denied on account of race, color or previous condition of servitude. It provides a fine and imprisonment against persons hindering citizens from voting or being registered. The U. S. District Courts are given exclusive jurisdiction of these cases.

The Chairman announced the appointment of Revels upon the Committee of Education and Labor.

Howell offered a resolution instructing the Committee on Public Lands to insert in all future land grant bills a provision to secure the rights of settlers to a homestead thereon and requiring the sale thereof at the same price as alternate sections held by the Government.

Stewart offered a resolution, which was adopted, directing the Secretary of State to furnish information as to what legislation is necessary to effect the administration of justice and protect American citizens in China and Japan.

Howard called up the joint resolution authorizing the Northern Pacific Railroad Co to issue bonds and to secure the same by mortgage. A debate ensued upon the amendment reported by the Pacific Railroad Committee to make up the deficit in amount of land granted by Congress and to extend the limits within which the land may be selected to ten miles on either side of the road. Harlan opposed the amendment on the ground that the road has now got a sufficient amount of land. At one o'clock the bill was laid aside and the funding bill was taken up. Sherman made a long speech in support of the bill explaining its beneficial results. At three o'clock the Senate went into executive session and subsequently adjourned.

In the House, various bills were introduced and referred, including the following: To provide for the enforcement of judgments in lawful money, to regulate the civil service, to amend the Internal Revenue laws so as to relieve the people in the late insurrectionary States, a resolution exempting pork packers from the tax already collected was amended by striking out the refunding clause, and then referred to the Committee on Ways and Means.

Palmer offered a resolution instructing the Committee on Banking to report a general law authorizing the establishment of a national bank, irrestricted in the aggregate number and circulation, and based on such issue of U. S. bonds as shall induce the lowest possible rate of interest. The House refused to second the previous question and the resolution went over.

Spink, of Dakota, offered a resolution in favor of such a tariff for revenue on foreign imports as will incidentally protect domestic manufactures, and without impairing the revenue, impose the least burdens upon and best promote and encourage the great industrial interests of the country. The House seconded the previous question. Wood moved to table the resolution, negatived without division. The resolution was adopted, 107 against 40. The resolution is copied verbatim from the National Democratic platform, but the sixty eight Democrats voted against the resolution.

The Speaker presented the resignation of Golladay of Kentucky, and Deweese of North Carolina, who are understood to have been implicated in the matter of selling cadetships.

The House went into Committee of the Whole on the Indian Appropriation bill. The massacre of the Piegan Indians by Col Baker was further discussed by a number of members, Stevenson, Cavanaugh and McCormick defending the act. After progressing through 34 pages of the bill, the committee rose.

Beck offered a resolution extending the time for the withdrawal of distilled spirits from bonded warehouses to three years from date of entry. Hooper offered a substitute imposing an additional tax of one per cent per gallon for every month after the first year. Prosser hoped the government would not exact twenty four per cent interest in that way, thus discriminating in favor of foreign importers against home distillers. Banks, of Massachusetts, and Covode sustained Beck's proposition. Marshall favored an extension of time and payment of interest but not to the enormous rate proposed by Hooper. He submitted an additional tax of one half cent per gallon per month. The ayes and noes were ordered on Marshall's amendment.

Garfield asked that the Committee on Banking have leave to report at any time on the subject of the gold panic, and Cox asked leave to report the views of the minority. The House agreed to the motion.

Cullom's polygamy bill was made the special order for March 2.

Gold Plot Investigation

NEW YORK, March 1.—The testimony before the special Congressional Committee in regard to the gold plot is published. It is very voluminous and clearly indicates the cause of the panic and the unfounded stories regarding the complicity of the Administration. The *Times* in reviewing the report says the whole story comes to this: Butwell undoubtedly acted as he believed was for the interest of the Republic. Fisk & Gould thought they were going to make a fortune by sending up the price of gold. They believed Corbin would further their schemes. They also tried to get Gen Butterfield on their side. It must be owned he does not come out of the affair with perfectly clean hands. Fisk and his associates did not find the plot to work well, but Gould modestly declined to say how much he made out of it on the whole. Finally the President and one or two others who were scandalously traduced at the time are shown to have acted throughout with the highest integrity.

Intense Cold in Northern Europe.

Letters from St Petersburg state that never in the memory of man has more intense cold been experienced than that to which the people are at this moment exposed in Russia, Poland and all the north countries. A number of deaths from congelation are reported by the Russian journals, among them several sentries who were frozen at their posts.

Washington News

WASHINGTON, March 1.—The Navy Department has nothing by which it is able to relieve or allay the terrible suspense of those most interested in the particulars of the *Oneida* disaster. A letter has been received here by the Collector from his son, Paymaster Tullock, of the *Oneida*, dated January 23d, in which he mentioned that the home pennant had been hoisted and farewells made with their friends of the squadron who were to remain on the station. Admiral Porter says the present complement of the *Oneida* will not fall much short of one hundred and sixty souls.

MADISON, Ind, March 1.—Incendiaries made another attempt to burn the *Courier* printing office last night and the lower seminary. The fire in both cases was extinguished without much damage.

From San Domingo

NEW YORK, Mar 2.—The *World's* Port Au Prince correspondence says Admiral Porter, commanding U. S. North Atlantic squadron, entered that harbor Feb 9th with flagship Severn and iron clad *Dictator*. Upon landing he had an interview with Haytien authorities and announced that the United States had formed an alliance with President Baez of San Domingo. He had been sent to say that any aid given Cabral would be considered an act of hostility toward the United States and would provoke hostilities in return.

NEW YORK, March 2.—Advices are received from San Domingo that the Dominican Republic has formally declared for annexation to the United States. The vote being taken by the government shows an overwhelming majority in its favor.

New York News

Judge Spinner yesterday vacated the order of attachment in the case of Henry Clews & Co vs Livermore & Co. The case of action arose out of the gold excitement in September last.

The case of Judge William Fullerton, which originated during the investigation into alleged whisky frauds on the part of ex Commissioners Rawlings and Harland, was called for trial before Judge Woodruff yesterday, but postponed until Monday next on account of the illness of Chas O'Conner, one of Fullerton's counsel, who is confined to his residence with small pox.

No intelligence has been received either directly or indirectly from the commanders of the passing vessels of the *City of Boston*, nor the Bremen steamer *Nirara*, which latter vessel cleared from here for this port and sailed in January and consequently she is now 48 days out.

George Wilkes has brought another libel suit against the proprietors of *The [illegible]*.

The pneumatic tube under Broadway will be extended to Battery and then under the river to Brooklyn.

Seward was visited yesterday by a large number of prominent citizens. The banquet in his honor has been postponed till Monday.

General Quesada arrived to day. He was loudly cheered on landing at Jersey City and was accompanied to his hotel by a large crowd.

At the annual reunion of St. David's Welsh Society this evening at the Metropolitan Hotel two hundred guests were present.

Silver Mines Discovered—Trouble in the Fenian Camp.

LOUISVILLE, Feb 28.—A silver mine of unparalleled richness has been discovered in Grayson county, Kentucky. The ore found contains a larger per cent of silver than any hitherto discovered. The mines are almost inexhaustible, and will be developed in the spring.

Patrick J. Mehan, editor of an Irish paper, was shot this evening by James Keenan, on Broadway. Both are members of the O'Neil branch of the Fenian Brotherhood, and were in attendance at the Fenian meeting. Gen O'Neil was also at the meeting which was very stormy, the Senate and Gen O'Neil having come to open rupture. Keenan was an adherent of O'Neil's and was disrupted to night by the Senate from the position of Secretary of the organization, mainly, it is said, through the efforts of Mehan, who is chief of the opposition to O'Neil. The meeting broke up with feelings of bitter hostility between the two parties. Mehan, with a number of friends, had gone about a block when Keenan stepped up to him and shot him in the neck. The wound is said to be very dangerous. Keenan was arrested.

Central and South America.

NEW YORK, Feb 28.—The *Henry Chauncey* brings Isthmus dates to the 19th. The gunboat *Nipsic* leaves Aspinwall in a few days for California Bay to commence the survey for the Darien Canal, for which a number of laborers have been engaged.

Advices from Guatemala state that the revolutionists were routed by the Government troops January 23d, and peace is restored.

The treaty between Colombia and the United States for a canal across the Isthmus needs only the signature of the U. S. Commissioner, who is expected shortly at Bogota.

A slight shock of earthquake was felt at Panama, Feb 2d.

There is nothing new from Chile. At Theulocora a revolution headed by Gen. Sunzarg is reported, but no particulars are received. Business there was completely paralyzed.

The whole of Paraguay is represented as in a sad state, the people dying from want and starvation in the provinces. In Asuncion, the Italian Consul, with whom was deposited for safety a large amount of treasure by wealthy families when the place was captured by the Allies, attempted to leave with the treasure, but was caught and compelled to disgorge.

Steamer Sunk.

NEW ORLEANS, Feb 28.—The steamer *Mississippi*, southward bound, heavily laden with stock and Eastern produce, struck a snag at 2 o'clock this morning near the landing at Waterproof. She sunk rapidly. No lives were lost. The boat and cargo are a total loss. The cabin has just floated past Natchez.

The Yerger Case.

JACKSONVILLE, Feb 28.—E. M. Yerger, who has been in military confinement since June last, on the charge of killing Col Crane, was, to day, transferred to the Sheriff of Hinds county by an order from the Adjutant General of the United States army. Lieut Wood, Adjutant General of the 4th military district, immediately made affidavit before Judge Cabona, charging Yerger with the murder of Crane. Counsel for the defense waived an examination, and Yerger was committed without bail.

Terrible Boiler Explosion.

SCRANTON, Pa, Feb 28.—A boiler in the rolling mill of the Lackawana Iron & Coal Co, exploded this afternoon. A portion of the roof with all its heavy timbers and shafting was blown into the air and fell with a tremendous crash, burying nearly thirty men in the ruins. Eight were taken out dead and eighteen are more or less injured. One has since died.

Female Suffrage in Ohio.

COLUMBUS, Feb 28.—In the House to day the bill to submit the question of female suffrage to a vote of the women of Ohio over 21 years of age, was rejected, 11 to 19.

Mail Robber Sentenced

RICHMOND, Feb 28.—John C. Thompson, Deputy Postmaster of the University of Virginia, was, to day, sentenced to ten years in the Albany Penitentiary, for robbing mails.

Famous Divorce Case.

NEW YORK, March 1.—The latest foreign mail brings details of the opening of the famous Mordaunt divorce case, in which the Prince of Wales appeared on the stand as witness. He was quite emphatic as to the insanity of the defendant. The most extraordinary evidence ever given in a court room was elicited on the occasion.

Indian Trouble in Montana.

HELENA, Mt., Feb 28.—Last Thursday a small party of intoxicated Spokane Indians came to a Ranch 20 miles from town. Their demands for whisky being denied they destroyed all the furniture about the premises and left. Three white men barricaded against the Indians who returned in a short time but were unable to enter the house.

They state that 15 horses of the whites were recaptured next day. The Indians threaten further violence.

Methodist College Burned

CHICAGO, March 1.—The Methodist Female College of Jacksonville was burned yesterday all except one wing. All the inmates escaped. Loss about $10,000; insured for $35,000. The fire probably originated from a defective flue. Two men were severely injured by falling walls. The course of instructions were to have commenced in a few days. The wing which was saved of this college was partially burned a few years since.

Chicago News

CHICAGO, March 1.—Gen. Dodge, chief engineer of the Union Pacific Railroad, has resigned his position on account of ill health.

A German named Hagle hung himself on Sunday in a cabinet shop on South Canal street. He left letters to his friends but assigned no excuse for the deed.

A young girl named Elizabeth Morton took arsenic in whisky on Sunday from the effects of which she died the same day. She was a sewing girl of dissipated habits.

Pat Gaffney, an Irishman, swallowed five ounces of laudanum, but his life was saved by prompt medical attendance.

Rev. D. C. Wright, a Methodist clergyman of Quincy, has been tried and found guilty of repeated acts of adultery and was dismissed from the ministry.

A monster petition was presented to the Mayor yesterday protesting the liquor saloons on Sunday. Rev. Dr. Roberts, in an elaborate speech, urged the sentiments of the petition. The Mayor admitted the evil results of keeping open saloons in the Sabbath but he was not authorized to revoke the saloon licenses except for [illegible] cause. The control of the police has been [illegible] entirely in the hands of the Police Commissioners. It was impossible to accomplish much in the matter without the aid of the police.

The Cadetship Investigation

CHICAGO, March 1.—A Chicago *Tribune's* Washington special says the Military Committee will report on the case of Deweese to day and ask for action similar to the case of Whittemore. Mungen of Ohio is found to be implicated in the sale of cadetships. The price involved was only $100. The joke on Mungen is that the boy appointed is the son of a prominent Republican, which Mungen was unaware of till the investigation disclosed the fact.

The Mordaunt Divorce Case.

NEW YORK, Mar 2.—Later London papers contribute a summary of the proceedings in the Mordaunt divorce case. The evidence of Sir Charles Mordaunt is interesting as indicating the general feeling with regard to the character of the Prince of Wales. Sir Charles testified that before his marriage to Lady Mordaunt he knew her intimacy with the Prince and after the marriage warned her against continuing the acquaintance. He said he had heard of various [illegible] certain circumstances connected with his previous character that caused him to wish her to break off with him. Notwithstanding this wish Lady Mordaunt continued to receive the Prince without the knowledge of her husband, until the time she made a voluntary confession that criminal intimacy had been existing between them. Sir Charles also testified to the discovery of a batch of letters and valentines from the Prince to his wife, but the Court refused to permit the letters to be read.

From Richmond

RICHMOND, Mar 1.—Rev Wm A Smith, ex President of Randolph College, is dead.

The Senate to day passed an enabling act and it now awaits the signature of the Governor. The offices now held by military appointees will be filled by the Governor.

From Cuba.

HAVANA, March 1.—The insurgent General, Napoleon Arrango, who originated the rebellion in the interior department, has voluntarily surrendered to the authorities with 70 men. He promised to come to Havana and confer with the Captain General with regard to the best means of ending the insurrection without further bloodshed.

A letter from Santiago de Cuba gives an account of the trial and execution of the members of the Cuban Junta in that city. Eighteen well known citizens were arrested, condemned and executed with scarcely a form of trial. They were not allowed the assistance of counsel or the privilege of summoning witnesses. Among them were two Americans.

Fenian Matters

NEW YORK, March 1.—General O'Neil, President of the Fenian Brotherhood, has issued an order that the annual Congress be held in Chicago April 11th, and revoking the call for the meeting in New York March 8th and 9th. This action is taken in consequence of the outrage on Mehan, whose condition is pronounced hopeless.

Outrage in Louisiana

NEW ORLEANS, March 1.—A party of twenty five men surrounded the Sheriff's house at Harrisonburg last Sunday night and causing the Sheriff and his family to retire, entered the house and killed Col Chas Jones and his eldest son. The youngest son escaped by leaping from a window.

The Scranton Explosion.

SCRANTON, Pa, March 2.—Two of those injured by the explosion yesterday died to day. The injured numbered twenty five. One or two others cannot live.

Prize Fight on Hand

NEW YORK, March 2.—A crowd of roughs interested in the proposed prize fight between Sam Collyer and Bill Edwards, gathered at the New Haven depot. It is reported that the fight will come off this morning at Foster's Island, Long Island Sound.

Miscellaneous

MEMPHIS, Feb 28.—Charlie McCommick and four immigrants, injured by the Oxford railroad disaster, have since died.

Samuel L. Woodson, formerly of Richmond, Virginia, and well known throughout the South, died of pneumonia yesterday.

PHILADELPHIA, Feb 28.—The Supreme Court of Pennsylvania has decided against the Commonwealth in the case brought by the State against the Philadelphia Savings Fund Society for $700,000 unclaimed deposits claimed by the Commonwealth.

ST LOUIS, Feb 28.—The Army Board for the revision of tactics and small arms, which has been in session since September, commences to experiment with small arms at the arsenal to morrow. A large variety of arms, cartridges and boxes of articles of a similar nature, are waiting attention.

The bed rock under the eastern pier of bridge, ninety five feet below the surface of the river, was reached this morning. The workmen celebrated the event by the firing of salutes, blowing of whistles, etc.

BOSTON, Feb 28.—The Directors of the Maine Railroad voted to pay gold on their coupons on the Danvers Railroad, due to morrow.

INDIANAPOLIS, Ind, March 1.—A fire at Thornton last evening destroyed a large flouring mill of McKenzie & Co, loss $20,000.

WHEELING, March 1.—The joint resolution proposing an amendment to the State Constitution so as to enfranchise negroes and ex Confederates passed the Senate to day. It was passed by the House on Friday and has to be concurred in by the Legislature next winter and then be submitted to the people in October, 1871. Under it enfranchised Confederates will first vote in October, 1872.

SPRINGFIELD, Mass., March 2.—Congressman Dawes was welcomed by a large gathering of his constituents at Pittsfield last evening. He made a brief speech. His assurance that all the departments of the Government are in perfect accord was enthusiastically received.

BY THE CABLES

LONDON, Feb 28.—A telegram from the managing directors of the Peninsula & Oriental Steam Navigation Co. says about fifteen miles from Yokohama, bound in, the *Bombay* collided with the American Corvette *Oneida*. The latter sunk soon after with the loss of about 120 men. The *Bombay* was not injured. The *Bombay* was due at Yokohama from Hongkong Jan 24th. The submarine cable from Bombay to Aden at the mouth of the Red Sea was successfully laid by the Great Eastern. This link places England and her Indian dominions in direct telegraphic communication. Messages from Bombay of to day's date are received here.

The morning papers urge the submission of the affairs of the Atlantic and Great Western Railroad to arbitration and propose Lord Derby and Cairns as arbitrators.

Rio Janeiro newspapers state that Lopez retreated with about six hundred Paraguayans. They were overtaken by a body of troops of the Argentine Republic and completely routed. Lopez however made good his escape. He left behind all his sick and wounded together with the families he held as prisoners and threw into the river a great part of his artillery. Gen. Catery with his forces was pursuing Lopez. Six iron clads had returned to Rio Janeiro, [illegible] that the war is practically ended.

In the House of Commons, Gladstone promised an early introduction of a practical measure for education in Ireland and Scotland. He also informed the House that a reciprocity treaty with Austria would soon come before it and he offered opportunity for a thorough discussion of commercial treaties.

Childers brought before the House the estimates of expenditures of the navy which amounts to nine and a quarter millions sterling. He proceeded to explain and justify these estimates, laying stress on the outlay incurred for building iron clads. When all the vessels now in process of construction were completed the iron clad fleet would consist of two broadside ships of the largest size, six second class, nine third, eight fourth and two sixth. Of turret ships there would be two first class, five second and two third, besides a number of small iron vessels. This fleet would place England on an equal footing with the highest naval power in the world. He proposed in order to keep its strength to the standard to add yearly 20,000 tons to the navy. He then proposed and explained a scheme for the retirement of the [illegible] officers. He said in making the changes in the personnel of the navy the government would promote efficiency and general content in the service and he believes these objects would be attained. After further discussion the House voted the supplies asked for.

Chalmer's bill making reforms in war [illegible] was considered and passed.

The English papers continue to urge the government to use strenuous measures to repress the present disturbances in Ireland.

NAPLES, Feb 28.—There is great distress among the southern provinces of Italy occasioned by the failing of a bank at Scylla.

ROME, Feb 28.—The Pope's secularization of Pere Hyacinth gives general satisfaction.

MADRID, Feb 28.—Three Brigadier Generals and several Colonels have been transfered to distant parts in the peninsula on account of their disloyal utterances.

One of those haughty Southern women who fled to Brazil when the rebellion was crushed, has written back a heartfelt appeal for aid, saying: "If the American Government means to take us home, hurry and do so, or it will have the dying curse of starved Americans. For God's sake take the unfortunate deceived people out of here while they are able to walk."

The Chicago *Times*, the pillar of fire of the Western Democracy, accepts the ratification of the Fifteenth Amendment, and advises the Democrats in the Constitutional Convention of Illinois to drop all further discussions of the negro question and let the new Constitution go to the people without the word "white" in its provisions. As a final refuge against the negro, it advises the insertion of a clause that will make suffrage depend upon a certain amount of education. This latter advice is hard on the friends and fellow citizens of the *Times*. Such a test would deprive as many if not more Democrats of suffrage than it would negroes. The *Times* must go slow in that direction if it does not wish to disband its own army.

RSDAY MORNING, MARCH 3, 1870

Free Trade Logic

ere is a journal called the *Free Trader*, shed in New York. It has a deal to say t the burdens of the tariff, and is resolute vehement in demanding that the country lieved from them It professes great love he masses of the people, and often des s feelingly on the injustice they suffer in g compelled by the tariff to pay high es for what they buy Yet this free trade nal, in a late number, has an elab e article protesting against the removal he duties on tea, coffee and sugar on the und that the Government cannot do with the revenue that is derived from those ar es This is a very sensible conclusion, what a conclusion for an avowed free der to come to!

Ve are told that the people want cheap , cheap salt, cheap woolen and cotton rics, and cheap shoes Therefore the *Trader* would have the duty on all these cles abolished. But do not the people want cheap tea and cheap sugar and ap coffee? If not, why not? These are cles of universal use, and by means of the y on them the poorer classes pay more ney to the Government than by any other ans whatsoever. The duty on these three cles alone produces $55,000,000 a year, or third of the entire customs revenue. those who are leading the free trade vement are willing that this shall stand, ile their official organ, in the same article which it opposes the removal of the bur n, cries out for cheap castor oil for the ople and the repeal of the duty on that mmodity!

Every sensible person knows that we must ve a large revenue in gold to meet the in est on the public debt, and is it not wise to ke the most and the best of this necessity, d while we impose a tariff for revenue take e to so adjust it as to foster and protect merican industry? But it is said that the iff builds up great manufacturing monop es which are amassing immense wealth, and s iron workers in particular are said to be [illegible] enormous profits But if so much oney is to be made in the iron business, hy do not such free traders as the New York [illegible] abandon their present business and o [illegible] iron? The field is open for em. If there are very great profits in any [illegible] business free competition will very oon reduce them.

The announced policy of those who are keeping up a din about free trade is to raise large revenue from such articles as do not eriously compete with our own industries, nd admit free such articles as we may manu acture for ourselves. This is the very re erse of sound policy. It would break down ur manufactures and drain the country of oney to pay for articles manufactured broad. It is a singular kind of free trade hat would leave the duties on tea, coffee and ugar, on the ground that the Government ust have the revenue from them, and bolish the duties on iron and textile fabrics n the ground of making them cheaper for he people.

Prosperity of the South.

While croakers at the North for several [illegible] have been asserting that the South was rod[illegible] down under a remorseless despot m, which was killing its industry, paralyz ng its activity and crushing out its very life, hat section of our country has been recov ring the energies it wasted in the war, and as started on a career of prosperity which [illegible] to exceed very soon anything known [illegible] before in its history. The evidences of his growing prosperity are continually ac umulating and cannot be denied, and in five [illegible] from this time that section will be far richer than it ever was before the war. We [illegible] below a portion of a letter from Texas to he New York *Journal of Commerce*, a paper which is decidedly hostile to the policy of the Republican party. What is stated in this letter in regard to Texas may be said substan ially of most of the other Southern States:

> Never did New Year's dawn upon Texas in a ore promising condition than on the 1st of Jan ary, 1870. An abundant yield of the various roducts of our soil, for which remunerative rices have been realised, has caused money to be lentiful and times easy. Out of debt, with a urplus in our State treasury of near $300,000, ur financial condition is eminently satisfactory. [illegible] The immigration, during the winter has een unprecedented—coming from almost every State in the Union, and from many foreign coun ries. Many of these emigrants bring with them apital, character and enterprise. Among all who come to cast in their lots with us, *none are [illegible] heartily welcome than Yankees.* * * Re ently we have received our first installment of Chinese immigrants, numbering about two hun red and fifty, designed for laborers on the Texas Central railroad. They have, from both press and people, met with a cordial reception. The need of their labor is generally felt and acknowl edged. It is the *unanimous* testimony from all sources that the freed people of our State have, during 1869, labored more cheerfully and indus riously, and behaved themselves with more gen ral propriety than ever before. They have gen rally entered into contracts mutually satisfactory for another year.

This picture is a vindication of the policy of the Republican party toward the South. That policy has killed the old proscriptive feeling there, has removed prejudices and aversions, has liberalized the sentiment of that section of our country, and has brought about a good understanding among all classes. The blacks, let it be noted, are "laboring more cheerfully and industriously, and behaving themselves with greater propriety, than ever before." The Chinaman who is mobbed by the enlightened Democracy of the Pacific slope, is made welcome, and there is general harmony and good feeling among all. In point of material prosperity the situation is most encouraging What have the croakers to say of this picture, presented by one of the staunchest Democratic papers in the Union?

Very Gratifying

We are gratified that the *Herald* has found something to be merry over, its dismal notes on the subject of repudiation had become monotonous months ago It alleges that the OREGONIAN, when the legal tender decision was first announced, "committed itself to the support of Chase's views," and that its more recent expressions, in which the wisdom of the decision is questioned, are inconsistent with its first position And then follows an attempt on the part of the *Herald* to get up a guffaw We are sorry to interrupt his pleasantry, but truth requires us to say that the OREGONIAN did *not* "commit itself to Chase's views." It only commiserated the Democracy because his views were against *them* There is a great deal of loose writing in Chase's opinion, and it is sadly wanting in that broad statesmanlike conception of constitutional powers which characterized the opinions of the Court in the days of Marshall

The erection of two cottages intended for the use of the Empress Eugenie at Saratoga is soon to begin, under the superintendence of Warren Leland

PERSONAL AND POLITICAL

Mr Hoag, the lately deceased Congressman from the Toledo district, left an estate worth near ly $1,000 000

D. R. Locke (Nasby) realized $32,000 from his lectures last year, and he has engagements the present year for 200 nights at an average of $200 a night

Cassius M Clay has the patent in this country for a "perpetual candle" a Russian invention He is having the article manufactured in Waterbury, Conn

The attempt to raise a Peabody monument fund in New York seems to have been abandoned The treasurer has only $600 in hand, and no subscriptions coming in

The Lynchburg *Virginian* evidently believes strongly in political principle It says to the Virginians 'Let both parties court us if they will, while we, like a coy maiden, play shy'

Henry Ward Beecher, in a recent discourse, speaking of the excellence of one of the hymns of Charles Wesley, "Jesus lover of my soul," says that he would rather have written that hymn than to have the fame of all the kings that ever sat upon the earth.

A Washington correspondent of the Louisville *Courier-Journal* relates that a letter from Governor Ashley, of Montana, to a friend, was lately read to General Grant. The Governor was rather free in his strictures on Grant's appointees Finally this passage was read "The President has made some bad appointments," so Grant quietly said, "Well, I think I have, and I'll just remove one of them now." And the order for Ashley's decapitation was made forthwith.

It looks as though the California Democrats, notwithstanding their pretensions and protests tions, rather like cheap labor. An amendment offered to the Marin Railroad bill, to the effect that the employment of Chinamen on the job should work a forfeiture of the charter, has been voted down by the Assembly by a vote of forty two to twenty four. How is this? The Democrats could have carried the amendment, but they didn't. Is that sort of voting consistent with Democratic professions and pledges to support "white labor."

A Washington dispatch says Gen. Garfield has already commenced to prepare his report on the gold panic which, he says, will be comparatively brief. The testimony, however, is voluminous, and will cover several thousand printed pages. After all that has been said and done, it is understood that the result of the committee's labors will show about what Scofield, in his tilt with Garfield in the House the other day, said it would, namely, that certain gold operators in Wall street undertook to put up the premium on gold, and that they succeeded until the Secretary of the Treasury sold gold and broke the ring Some of the testimony will, of course, be spicy, as it will give an inside view of the operations of Wall street.

WALLA WALLA

Pack trains are loading almost daily for points further in the interior.

The new Masonic Hall at Walla Walla was dedicated on Tuesday of last week with appropriate ceremonies.

Gen. Saxton has notified the Quartermaster's agent at Walla Walla to allow no one to squat on the Government Reserve at that place, and that if necessary cavalry would be sent from Fort Lapwai to enforce the order.

John Gholson who killed Patrick Clancy eighteen months ago, was brought before Judge Kennedy last week on a writ of *habeas corpus*. His bonds were fixed at $10,000, and the *Union* learns that it will not be difficult to get sureties.

A. B. Meacham, Superintendent of Indian Affairs for Oregon, was at Walla Walla in the early part of last week, on his way to Priest Rapids, where he is going for the purpose of gathering up the scattered bands of Cayuses and removing them to the Umatilla Reservation, where they properly belong.

A Chinaman recently stole a horse of Philip Ritz. The Democratic *Statesman* finds in this act a new argument against the fifteenth amendment. It says "white men have heretofore enjoyed a monopoly of horse stealing in this valley, but under the fifteenth amendment John Chinaman appears disposed to take a hand in the game." Terrible outrage on white men!

In an English Court of Law lately a witness was called to attest to a person's insanity. "I know he's mad," said the witness, "because the poor fellow imagines himself to be the prophet Jeremiah." "Do you consider that to be a proof of mental derangement?" asked the examining counsel. "I should rather think so," confidently replied the witness, "seeing that I myself am the prophet Jeremiah."

The Railroad Opposition Case

The following from the *Evening Commercial* relative to the opposition shown in the Senate by Democrats to a measure which is of great importance to Oregon is pertinent at this time, and as a reply to the Albany *Democrat* is well calculated to make that paper wince

The Albany *Democrat* tries to glamour over the opposition of Senator Thurman, particularly, and the other Democratic Senators, generally, to the Portland, Astoria and McMinnville Railroad bill, because that opposition is very damaging to the *Democrat's* party in Oregon just at this critical juncture, when the campaign is opening for the next June election in the State And then it states that "the vote in the Senate just before the passage of the bill showed only three Senators against it." The fact is that three Senators, besides Thurman, Casserly, Davis and Saulsbury, voted against the bill, and that those four did not vote because they had paired off with other four Senators who would have voted for the bill—in which event the vote would have stood forty-one in favor to seven against, instead of thirty seven in favor to three against, as the vote was actually cast

If the *Democrat* errs and misleads its readers through ignorance, the blunder is pardonable, although it exhibits want of thought or discrimination on the part of the blunderer to such a degree that anything he says should be received with great caution, but if the error is one of intention, deliberately made for the express purpose of evading the true statement of facts, and there in falsely informing its readers in its efforts to dodge a blow at its party, the paper is not worthy of credence on any point. In either case it shows itself to be an unsafe and unreliable guide and organ for any who depend on it to lead or champion their cause Independent papers do not commit such inaccuracies, such absurdities, nor any such evasion of facts. But then we cannot expect any independence on the part of that cotemporary, unless it be that species of independence which causes it to view facts and truths with a most signal indifference whenever occasion prompts, or policy suggests that it should do so

North Pacific Railroad—Work Commenced

The Winona (Minn) *Republican* says that active operations on the line of the North Pacific Railroad were begun on the 15th February A considerable force of men was set at work clearing a line through timber preparatory to the commencement of grading as soon as the frost should be out of the ground The New York *Herald* has an article on this great enterprise from which we extract as follows

"In order that the company may not forfeit its land grant from Minnesota, it is necessary that the road should be prosecuted with vigor, as actual settlers are taking up the lands and the time allotted to the company is drawing to a close It is necessary, therefore, to hurry up matters and this explains the anxiety of capitalists interested in the company It is calculated that it will cost six million dollars to build the first section of two hundred miles in Minnesota, and the capital of this section has been divided into one hundred full shares of $50 000 each, and the gossips say that the conferences of the past few days have resulted in all the shares being taken There is considerable talk in regard to the inside price at which these shares were distributed to the German bankers and others who have taken them Gossip places the price anywhere from $40,000 to $45 000 each It further stated that each subscriber of the shares gets $50,000 of 7 3 10 per cent gold bonds, and a bonus of stock anywhere from $100 000 to $500,000, according to private arrangements After the two hundred miles of road in Minnesota are completed, it is stated that the company or its managers will push the road on toward Puget Sound, and issue bonds to build it, the amount of which is variously estimated at $100,000,000 to $200,000,000"

LAST NIGHT'S DISPATCHES.

[DISPATCHES TO THE OREGONIAN]

EASTERN DATES TO MARCH 2.

Congressional

WASHINGTON, March 1 —In the Senate, Wilson introduced a joint resolution for the better observance of Sunday in military and naval departments.

Revels received a deputation of colored men of Philadelphia for the passage of a bill to secure equal protection under the laws

Drake from the Committee on Education reported a substitute for the joint resolution concerning agricultural colleges, providing that distinctions in race or color shall work forfeiture of bill

Howell made a speech in support of his resolution that a proviso shall be inserted in every land grant made to railways, to protect the rights of settlers and requiring the land to be put in the market at not to exceed $2 50 per acre Howell's resolution was adopted

The Senate resumed the consideration of the funding bill Corbett submitted and advocated an amendment previously introduced by him as a separate bill Without action, the Senate held an Executive session and adjourned

In the House, the Senate amendments to the Senate amendments to the Postal route bill were concurred in

Resolutions were adopted instructing the Judiciary Committee to inquire whether the Cherokees or other tribes of Indians are citizens of the United States under the fifteenth amendment, and whether a treaty can be made with them

Logan, from the Military Committee, reported the testimony in the case of Deweese with a resolution setting forth that Deweese sold a cadetship for a pecuniary consideration, and declaring that his conduct shows him to be unworthy a seat in the House The testimony was read by the Clerk, also a statement of Deweese acknowledging the receipt of money, but stating that at the time he did not know that there was any money in it. As soon as he realized that he had done wrong he returned the money The resolution was adopted unanimously Logan asked instructions as to what the Committee on Military Affairs should do with the investigation of sales of cadetships by members of former Congresses Woodward, Bingham, Banks and Logan thought the House had no jurisdiction. Various suggestions and resolutions were offered and modified, and finally it was resolved on motion of Garfield that the Military Committee be re instructed to continue their investigations of all purchases or sales of cadetships by any member of the forty first Congress, or any person holding any executive or judicial office.

Garfield, from the Committee on Banking and Currency, reported to day on the gold and currency question. The report gives a circumstantial history, and makes the following points

First—Prominent bankers and merchants who testified before the committee, were nearly unanimous in the opinion that there was no sufficient reason for the existence of gold exchanges, and that they are a source of measureless evils and ought to be destroyed.

Second—The gold conspiracies dealt a heavy blow at our credit abroad by shaking the faith of foreign capitalists in the stability of our trade and the honesty of our people, and at home the country was injured in its business and morality, and the heavy and numerous defalcations that shortly followed are clearly traceable to the mad spirit engaged in by speculation.

Third—The committee find that with wicked conspiracy the attempts to implicate the President of the United States or his family have utterly failed The report is severe on Corbin, who, it says, under worse hypocrisy than that which puts on the guise of religion and patriotism, used all his arts to learn something from private conversation which could be made profitable to him and his fellow conspirators The report relieves Mrs. Grant and General Porter from the suspicions of gold gambling. All the public funds entrusted to Butterfield were faithfully accounted for. It is not conclusively proved that he was concerned with the conspirators, though the evidence on this point is conflicting. Gould swearing positively that he bought two lots of altogether a million and a half of gold for Butterfield, who, on the other hand, denies this statement under oath. It is proved that during his whole term of office he was dealing largely in United States bonds on his own account. The committee recommend the adoption of a resolution that the Committee of Ways and Means be instructed to report a bill levying such tax on gold exchange and gold exchange clearings as in their judgment the interests of the country demand, that the committee be instructed to enquire into the expediency of reporting a bill to punish conspiracy against the credit of the country and the business of the people.

Cox and Jones unite in a minority report. They contend that the gold conspiracy was involved in the appointment of the Assistant Treasurer at New York, and was encouraged by a change from the policy of Secretary McCulloch, that sales of gold, if at all made, should be regulated by law, that the committee refused to investigate the conduct of persons, including the President, in Washington, and therefore the investigation was partial. Both reports were laid on the table and ordered printed. This gives the committee control of the matter, so that they may call it up at any time.

Washington News.

WASHINGTON, March 1.—The Navy Department has not received any particulars of the *Oneida* disaster, and it is impossible to obtain a perfect list of the officers and crew of the vessel for the reason that as she was about to leave China for New York some transfers, both among officers and men of the squadron, were made, some of whom were of the men who had yet to serve out their time of enlistment, while others belonging to other United States vessels of the same squadron, whose terms had expired or were about to expire, would be transferred to the *Oneida* for home passage President Grant, Secretarys Fish and Boutwell, and several Congressmen to day attended the marriage of Winfield Scott Smith a prominent newspaper correspondent, to Mrs. Dupont, of Washington

The Public Debt statement shows a total debt of 2,661,668,798 43 The amount in the Treasury in coin, $102,400,739 97 Currency $10,286,286 90 The decrease of the debt for the month was $6,484,811 75 Since March 1st a year ago, the decrease was $87,189,782 84 Bonds issued the Pacific Railroad Company, (interest payable in lawful money), amount outstanding, $64 407 320, interest accrued not yet paid, $537,541 26, interest paid by the United States, $6,881,664 96, interest repaid by transportation, $1,934 074 61, balance of interest paid by the United States, $4 887,590 35

New York News

NEW YORK, March 1 —Mehan, editor of the *Irish American*, who was shot last night is doing well, though the ball is not yet extracted. Keenan was arraigned before the Police Justice this morning He persisted in a denial that he fired the shot. Several witnesses on the contrary identify him as the would be assassin

A fire at No 33 Broadway this morning, occasioned a loss of $20 000 to S M Amburg, $30,000 to F M Mendium $10 000 to Dubois McGorham & Co, and considerable to Ridgley & Co, all insured

Mayor Hall returned the resolution of the Common Council tendering Seward the hospitalities of the city, saying that it does not require his approval, but at the same time he calls attention to the provision in the charter forbidding expenditures for celebrations etc without a three fourth vote

Another Cuban expedition is reported as about to leave the country Four hundred Cubans and others it is said will leave on Saturday, under Bois Harper and Romero

NEW YORK, Feb 2 —Mr Seward was to be entertained this evening by August Belmont, and to morrow by the Peruvian Minister

There are 103 buildings to let within a small area in the lower portion of the city until recently occupied by wholesale liquor manufacturers and dealers.

BOSTON March 1 —Orders are given to reinstate half the workmen discharged from the Charleston Navy Yard These resumed work to day

BY THE CABLES

PARIS March 1 —Notwithstanding the announcement that the Mardigras festival would be suppressed by the police at this hour, one o'clock, the fat ox procession has just entered the court yard of the Tuileries and a great crowd of people are gathered on the line of march, but no disturbance of any kind has occurred

ST PETERSBURG March 1 —It is reported that M Lery Brown Secretary of the Embassy, will be appointed to the place made vacant by the death of Burlingame

The remains of the late Anson Burlingame will be sent to the United States via Berlin. The widow of the deceased remains at St Petersburg

ROME, March 1 —For the first time since 1850, the police permitted the wearing of masks in the streets during carnival. No trouble occurred The weather was unfavorable and there was but little animation in the festivities

BERLIN, March 1 —In the Reigstag Count Bismarck made a long speech on the abolition of the death penalty He said the adoption of such a measure would be fatal to the new code The Reigstag however voted in favor of abolition by a majority of 37

LONDON, March 1 —Dispatches just received announce that fifty six lives were saved at the sinking of the *Oneida*

In the Commons Ryland gave notice of a motion for the reduction of the African squadron

The insurance on the steamer City of Boston has been advanced It is believed at Lloyds that the steamer has run southward under canvass. The *Times* criticises the vagueness of Gladstone's remarks in Parliament last night on the proposed action of the Government in relation to the bills for the reform of the land system in Ireland It don't believe there can be anything thorough reform as long as the Government fails to assert the majesty of the law Crimes are still unpunished in Ireland disorder is rampant and the Government can never justly or centrally [illegible] policy till it asserts its power The *Times* denounce the adoption of such a policy without a day's delay

A meeting of the Irish leaders will be held on Monday for the purpose of taking action in reference to the Irish land bill The Liberals will endeavor to add an amendment extending the system of tenant rights of Ulster to the whole of Ireland A great many Liberals, especially Whigs will resist the amendment The Irish Liberals do not feel satisfied with the explanation made in Parliament in reference to the treatment of O Donovan Rossa and his fellow convicts The whole subject will speedily be brought to the attention of Parliament

DUBLIN, March 1 —Intense excitement prevails in Tipperary district, arising mainly out of electing a candidate to succeed O'Donovan Rossa Bickham, who was supported by the Fenians and known to be Rossa's choice was defeated by only four votes The successful candidate Heron, who was present at the polls was only saved from mob by the police An attempt was made to attack him at Clonmel being pursued far beyond the town by armed bands of Rossa's friends The police continued their protection until he passed the limits of the town

BREMEN, March 1 —The Bremen steamer *Rhine* foundered yesterday while coming up to Bremen Haven At last accounts she was not got out

CALIFORNIA

SAN FRANCISCO, March 1 —A special meeting of the Chamber of Commerce will be held to morrow at 2 o'clock at the Merchants' Exchange, to receive the report of the Committee on Dockage and Wharfage, and to transact such other business as may come before it

On the 17th of February the Stevenson House was entered in the day time and robbed of a quantity of wearing apparel and some bed clothes, and on the same day the Wadsworth House, on Bush street, was robbed of some clothing and a box of jewelry and valuable papers Yesterday detectives Bohen and Stone found all but the jewelry and papers in the possession of a man named Julian, whose place of business is on Pacific street, near Davis, and on his representation they arrested C Hoffman, who, the day before the robbery, had been released from the county jail.

The *California*, for Victoria, did not sail till 5 o'clock yesterday morning, the postponement being occasioned by a press of freight.

A telegram from up the Columbia announces that the *Tenino* reached Wallula on Tuesday evening, and was expected back to Celilo last night.

The temperature yesterday averaged about fifty deg. We had, however, every variable specimen of weather, from balmy spring to [illegible] winter.

PLANK ROAD SCHEME REVIVED.—There will be a meeting of the citizens of Portland and vicinity at the Council Chamber, on Friday, March 4th, at 7 o'clock P. M., for the purpose of considering what may be done in the matter of constructing a plank road from this city to Tualatin Plains. This scheme was under consideration a two or three years since, and at various times prior to that, but was abandoned on account of failure to raise the necessary subscriptions. We are not advised as to the views or purposes of the parties who are now moving in the matter All that, however will appear at the meeting, and it will be well for our people to turn out and learn for themselves whether the scheme is one to commend itself to their support. There is nothing more certain than that one of our greatest needs is the means of communicating more easily and cheaply with the farming districts in our neighborhood.

PASSENGERS FOR PORTLAND.—The following is a list of the passengers per *Moses Taylor*, which sailed yesterday from San Francisco for Portland Ben Holladay Dr E W Mitchell and wife W A Upton and wife, S W Backus, G B Knapp M C Bane, J Copeland, J R Brighem, L C Millard J G M[illegible], A C Wilbur, A Huff, J F Moxley John Berry, J W George, J L Smith and wife and four children, L E Smith and wife and five children, J Rosenbaum and neice, Ed Landers, C W Chapin, W R M[illegible], H R Littlefield, J Smith, J Watson, M G Smith, L Levi, Mrs J P Quinn and child, Miss E Riley, Miss Mary Gissen, Mrs M Gerson, John Sleep, P McCaffrey, C H Crossley, Francis McKenna, John McKenna E J Becker, C F Beck, P O'Reilly and 30 others

A Splendid Supper.—The congregation and friends of the A. M. E. Zion Church, set one of the most elegant suppers at the Washington Guard's Armory last evening, of which a large number of friends partook with a good relish. Everything edible, gotten up in the very best style, was furnished guests in abundance. It was as fine a table as we have seen spread in the city. We were unable to learn the amount of the proceeds which are to be applied to liquidating a Church debt.

Magazines and Pictorials.—We are indebted to S J McCormick, the Prince of book and news dealers, for a generous bundle of magazines and pictorials, including *Harper*, *Godey*, *Leslie's*, *Harper's Bazaar*, *Chimney Corner*, etc. He has his counters well supplied with these and other standard publications received by last steamer.

Oro Fino Theater.—The Gregory family is still drawing good houses. At the matinee yesterday afternoon the hall was full, and a fair audience was out in the evening. At each performance they give something new. There will be the usual variety to-night, and to-morrow night a change of programme and a benefit to Miss Bessie.

"Oh No! We're not Going Down After 'Em—Not Us"

Scene—A barber shop not a thousand miles from Portland. In the only chair which a certain Tonsorial Emporium boasted of for business purposes, could have been seen a Caucasian of goodly proportions in habiliments of purple and fine linen. Sitting on the side, awaiting the finishing stroke to the first one's toilet, was another Caucasian, whose thread-bare appearance and busy perusal of Pomeroy's *Democrat* was satisfactory evidence to the first one that he was a member of that great party whose principles are universal and unchangable—provided you are fool enough to believe their orators and newspapers

The barber was to all appearance a "Virginia nigger." The last flip of his towel and his "all right, sar," brought Caucasian No 1 to an upright position, who calmly surveyed the surroundings, and our friend of the unkempt beard and hair. Satisfied at last with his scrutiny, he opened a conversation by observing, "that from appearances, this concern does not pay very well, does it?"

"No sar! no sar!" was the quick reply of the proprietor. "Times are dull, and I have a large family to support."

"Ah! Ahem! Ah! family, hey!"

"Yes sar."

"Going to vote soon, are you not?"

"Dunno sar, dunno."

"Ah, ha,—you have considerable influence among, ah, among the, a, the colored people of this place, hav'nt you?"

"Some sar, some."

"Well now, suppose, ah, hum, it would take, let me see, about ah, say, ahem, hum, wouldn' it?"

"Dunno sar, 'deed I don't—I'se a Pittsburg nigger, and hain't got much schooling."

"O! you are, are you! Well really, I am glad of it, because I am a Pennsylvanian myself, and I am always warm toward a *citizen* of the key stone State, good gracious, what a difference it makes where a man (emphasises on man) comes from; and now while I think about it, if you had a good friend to stand by you, almost a blood relation I might say—being from the same State—could'nt you use your influence for the right side between now and next election day?"

"We'll really sar, I think I might be persuaded."

"O! ha, h—m—suppose now that I find a friend who will loan you five or six hundred dollars to fix up your shop with—would that be any inducement for you to work for my party—I am a Democrat you know.

"Yes sar, I know it—better let me hab de money to spend among de boys."

"Well I was only *joking, you know*, I will call in to-morrow." Exit number one.

Number two glanced over his paper at the barber, (who had struck an attitude), and said

"Well, what's the matter, the offer was a good one?"

"Maybe so, but just let him call to-morrow, and I'll let him know that the price of niggers has raised since the adoption of the Fifteenth Amendment."

How Ghosts are Made.—Delaware county (Ind.) has been for some weeks in convulsions of terror over a ghost, which has at length been dissipated by an affidavit, signed by Melissa S Stubbs, her mark, and of which this is the closing paragraph

Mrs Fuller made the dough face. She wore it first, and I wore it next. It was a frightful looking sight. I made the noise in the little room with a horn. It scared Peter Fuller so that he laid on the back part of the bed and made his wife lay before.

Admiral Farragut and Commodore Turner have had an "unpleasantness" which has led to the sending of some spicy letters from both parties to the Secretary of the Navy. Farragut is said to have made a very sad complaint of disrespectful conduct toward him on the part of Commodore Turner, and the latter is reported as having written to Secretary Robeson, beseeching that in future he may be ordered in such a way as not to have to come in contact with Farragut for evermore

Hours of leisure, days of recreation, bloom of health joy in the family, all result from the purchase of a Grover & Baker Sewing Machine. Wm Currier & Co, Agents

Something Good.—Do you love oysters—we mean nice fresh ones, just from the coast? Then by all means call at the Union Fish Market, where you can have them sent to you every day just as you want them, for a surprisingly low price. Also, all kinds of fish in their season. Remember the place—Washington street, near Second.

Valuable.—The recent bill before Congress granting aid for the construction of a railroad from the Columbia river to Puget Sound, if passed will make the large tracts of coal and timber lands owned by the Puget Sound Homestead Association on the Skookum Chuck and Newaukum very valuable

A few shares only remain untaken and can be had at the office of the Secretary or of Mr Conklin, Canvassing Agent

Moss Agates are found on the Green River and a few other points on the Pacific Railroad. They make very handsome sets for Jewelry and are considered very Stylish. H L Stone has a fine assortment of this elegant Jewelry for sale

Railroad matters are very likely to be lively this spring. The East Side Company will engage a large force of men to complete their road to Albany and the West Side Company will, very probably, build a portion of their road in order to obtain a land grant to facilitate the building of their line to McMinnville. Kohn & Fishel are keeping up with railroad times. Their stock of spring goods coming across the continent by rail will be the largest and finest stock of Clothing ever imported to this State. Their stock in store now is offered very low to make room for large arrivals. They are manufacturing the neatest Boys' Suits and always have on hand a large stock of the same which are offered at lowest figures

Removal.—J W Campbell has removed his new Patent Bed Bottom manufactory to Messrs Jensen & Bethlefsen's Cabinet and Carpenter shop, southeast corner of Morrison and Fourth streets. Although but recently introduced the Minnesota Bed Bolt [illegible] is fast coming into general use and is giving general satisfaction. Come and see it. j-9d1m

The Living Machine.

Injure the main spring of a watch and every portion of the works becomes disordered. The human stomach is to the human system what that elastic piece of metal is to a chronometer. It influences the action of the other organs, and controls, to a certain extent, the whole living machine. The comparison may be carried further for as the weakness or other imperfections of the main spring is indicated on the face of the timepiece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion is sallow or faded, the eyes are deficient in luster and intelligence, and there is a worn, anxious expression in the whole countenance which tell as plainly as written words could do, that the great nourishing organ whose office it is to minister to the wants of the body, and to sustain and renew all its parts, is not performing its duty. It requires renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be the one thing needful. The broken main spring of a watch may be replaced by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indigestion it stands alone. When the resources of the pharmacopœia have been exhausted, without, at best, doing more than mitigating the complaint, a course of this wholesome and palatable, yet powerful stomachic effects a perfect and permanent cure. In all cases of dyspepsia the liver is more or less disordered, and upon this important gland, as well as upon the stomach and bowels, the Bitters act with singular distinctness, regulating and re-invigorating every secretive and assimilating organ on which bodily and mental health depend.

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts

The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless buyers should be forewarned and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.

Each package bears the signature of G VENARD.

Pretty is that Pretty Does.

The spider wears a plain brown dress,
And she is a steady spinner;
To see her quiet as a mouse
Going about her silver house,
You would never, never, never guess
The way she gets her dinner!

She looks as if no thought of ill
In all her life had stirred her,
But while she moves with careful tread,
And while she spins her silken thread,
She is planning, planning, planning still
The way to do some murder.

My child who reads this simple lay
With eyes down dropt and tender,
Remember the old proverb says
That pretty is which pretty does,
And that worth does not go nor stay
For poverty nor splendor.

'Tis not the house and not the dress
That makes the saint or sinner.
To see the spider sit and spin,
Shut with her webs of silver in,
You would never, never, never guess
The way she gets her dinner. *Alice Cary.*

Origin of Odd Fellowship

he following statements relative to the in of the Order of Odd Fellows will be inent at this time, in view of the interest ted here by the recent ceremonies of that er:

n this country and England the origin of order is well defined but according to some itions of the order it dates back as far as o, having been established by the Roman ier in the year 55. At that period of the tence of the order, its members were called llow Citizens." The present name was n them by Titus Cæsar in the year 79; y were so-called from the singular charac- of their meetings, and from their knowing h other by mysterious signs and language. the fifth century the order was established the Spanish Dominions, and in Portugal century succeeding. It did not reach nce and England until the eleventh century. the latter part of that century a grand ge was formed in London by John De assisted by five knights from France om there the order has spread to every quar- of the globe.

These traditions are resisted by the Ameri- n Odd Fellows and the Grand Lodge of the ited States has declared them absurdities. ming down then to matters of established t, the Order first appeared in England to- rds the beginning of this century. Its mbers were styled Ancient and Honorable yal Odd Fellows. The movement started London. It spread through the country d when it reached Liverpool a general sys- m was formed and called the Union Order Odd Fellows. Its members were mechan- s, and their meetings convivial. In 1809 an tempt was made to abolish this bacchanal ature. In 1813 a convention met at Man- hester to consider this subject. Here schisms re developed. Finally a secession was ade and the seceders formed the Independ- t Order of Odd Fellows. This is the pres- t English Order, and numbers half a mil- on members. It is also known in this coun- y as the Manchester Unity.

In the United States the Order began April 6th, 1819. An Englishman, Thomas Wildey, ith four others, organized Washington Lodge o. 1. The Manchester Unity confirmed this ction and issued to the lodge the necessary harter. But about 1823, the American move- ent assumed an individual character and set p business on its own account. The institu- on was changed and the two orders have een since distinct. The United States order numbers nearly 700,000 members. In Canada he English system is observed. The United tates order is called the Independent Order f Odd Fellows, and admits only white men. he Manchester Unity admits blacks. There one lodge among the blacks, in this Repub- , of which we have knowledge. It is in hiladelphia Some years since a number of nglishmen, in inland Pennsylvania, applied the Manchester Union for a charter for a ubordinate and Grand Lodge. The authori- ies of the English order politely referred the pplicants to the negroes in Philadelphia, ho held all requisite power to institute sub- rdinate lodges. John Bull's dignity never ecovered from the effects of this advice. The poor Englishmen have missed the com- orts of their brotherhood since that sorrowful ay.

There are lodges in the Sandwich Islands ounded by our citizens. Other than these, ve believe there are no lodges save in Canada nd Great Britain. But the order is every- where prominent. It is gaining in numbers and constantly growing in respect. By its usefulness and benevolence it has become ex- ceedingly popular. It is generally supposed to be a hand-maid of Masonry, but there is no authority for calling it either a branch or an adjutant of that ancient and respected or- der. Each has its own purpose and own field, and both are doing much more good for hu- manity at large than the outside world gives them credit for.

Emigration to America.

NMARK BEING DEPOPULATED—THE DANISH GOVERNMENT ALARMED.

The London *Mail* of January 13th says: "Emigration from Denmark to America has assumed such gigantic proportions—and gives promise of still further extension—as to cause some alarm in the minds of thinking Danes, who ask each other to what it will ultimately lead; for it is not only the superabundant and useless part of the population that now emigrate, but some of the most useful classes of society, including valuable skilled laborers, whilst the last census shows that the number of inhabitants is sensibly diminishing from year to year. At Copenhagen a Committee has been formed, with the sanction and support of the Government, to see what can be done to prevent the country from being drained of her agricultural and mechanical population. It is proposed to endeavor to induce intending emigrants to remain in the country and settle in the western part of Jutland, where there is much uncultivated land belonging to the State and a very sparse population; and where by grants of land, liberation from the payment of taxes for a certain period, and other inducements, they might establish colonies in their own native country. Previous, however, to the execution of such measures it would become indispensably necessary to give such colonists the facility of communication with the rest of the Kingdom by the construction of a line of railway from Silkeborg to the coast. The Committee are further of opinion that money prizes should be distributed for successful colonization and excellence in the various departments of agriculture, as well as the gift, or at least the free use of the latest inventions and improvements in agricultural instruments, and instruction in the most effective mode of using them. All this, of course, could only be done with the consent of the Danish Parliament; and we learn from our correspondent at Copenhagen that the Committee and the Government are now preparing the draught of a bill on the subject, to be presented to the legislative Chambers on the opening of the session.

The New York *Tribune* of February 14th has the following, which is very good. At last we have something definite concerning the bounties and beauties of Alaska—something in the solemn, trustworthy, official form, to-wit, "a report upon matters in Alaska." Upon its presentation to the House, Mr. Banks moved that the Secretary of the Interior be requested to transmit to the House, the report of Mr. V. Colyer on the fur seal fisheries of Alaska. Then Mr. Banks again moved that the Secretary of the Treasury be requested to transmit to the House the reports of Mr. Frank Wicker, on the fur-seal fisheries of Alaska. Now, we move that all persons knowing anything of the fur seal fisheries of Alaska, whether by reading, observation or hearsay, be at once summoned to appear before a special committee of the House on the fur seal fisheries of Alaska. But this would not be enough. We want more committees. We want a special committee on the grapes, oranges, lemons, bananas, watermelons, rice and sweet potatoes of Alaska. We want a similar committee on the gold, silver, lead, pewter, diamonds and amethysts of Alaska. We want yet another committee upon the natural scenery of Alaska, which, we understand, is most beautiful. We don't like to ask for too much, but if we could have another committee on the brave and chivalrous Indians of Alaska, it would be more satisfactory to our soul.

It is now authoritatively stated that Lieutenant-Governor Cumback has declined the appointment of Minister to Portugal. The Indianapolis *Journal* says his law practice promises to be more remunerative than the mission would be.

FINANCE AND COMMERCE.

PORTLAND, March 2, 1870.

Portland Legal Tender rates [illegible]

There is no more than the usual complaint at the beginning of this month regarding the scarcity of money. Indeed we have heard the opinion expressed by a number of people that money is perceptibly easier than at the opening of last month. Interest rates are unchanged and the supplies of money at the banks for short loans are abundant.

The bids for the purchase of State Bounty and Relief bonds were opened at Salem on Tuesday. The State*sman* says: "The bids accepted were for Relief bonds as follows: $4,[illegible] at [illegible] cents, and $[illegible] at 97 cents. The total amount to be redeemed was ten thousand dollars. The bids accepted for Bounty bonds were as follows: $500 at [illegible] cents, $400 at 97 cents, $14,[illegible] at $1 00. This shows Oregon State credit to be at a healthy standpoint, for it must be recollected these bonds draw only 7 per cent. interest, when the usual rate of interest charged in the State is one per cent. per month."

There is not much improvement yet in the jobbing trade, beyond a slight increase resulting from the resumption of navigation on the upper Columbia. As heretofore, interior merchants are buying but small lots of goods. The bulk of trade is with the towns on the Willamette reached by steamers, the roads being so bad as almost to preclude transportation by land.

We notice that the *Montana* takes a large lot of potatoes for the San Francisco market. For the last two years, there has been no considerable shipment of this kind. The steamer also takes a large lot of bacon put up very nicely in boxes by Thomas Cross of Salem.

The steamers of the P. T. Co. are all actively employed to meet the demand for shipments of produce down the river. The present stage of water enables the smaller boats to reach Eugene and way ports, and consequently the receipts from above are very large.

Two schemes are on foot to build plank roads leading from this city or East Portland into the country. Articles of incorporation have been filed by one company which proposes to build a road from Silverton to East Portland; and a public meeting is called to consider the scheme of constructing a road from this city to the Tualatin Plains. Considering the near prospect of railroad communication in both directions, it is more than doubtful if either of the roads can be constructed as proposed. A road of twelve miles would connect Silverton with the East Side railroad; and it is not very doubtful that the Tualatin Plains at Hillsboro will be connected by railroad with this city quite as soon as the plank road could be constructed.

The *Alta* of a late date says: "We noticed some few days since the notice of a bill before Congress to abolish all port charges, harbor fees, pilotage, etc., under State laws, in accordance with the provision of the Constitution of the United States, which gives the regulation of commerce to Congress alone. And in accordance with the case of the *Nautilus*, pressed to suit by the owner, C. F. Barnes, Esq., in which the 'harbor fees' of the city of Washington were decided to be illegal. Mr. C. F. Barnes is now in this city as the agent of the Eastern ship masters, ship owners, merchants, etc., to obtain petitions from the shipmasters and owners on this coast, praying Congress to protect navigation from illegal exactions. * * * This is a matter of the highest interest to all parties, and it is to be hoped that a large number of signatures will be obtained."

HOAGLAND'S

NEW PATENT SHAFT COUPLING!

W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.

He respectfully refers to the following

CARD.

Having examined the New Patent Shaft Coupling, invented by H. B. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

FIRST

NATIONAL BANK OF PORTLAND.

SAVINGS DEPARTMENT!

THIS BANK has established in connection with its general Banking business a SAVINGS DEPARTMENT, and will allow Interest on coin deposits made in accordance with the conditions adopted by this Bank.

In establishing a SAVINGS DEPARTMENT this Banking Association has in view the benefits to accrue to a class of persons having small sums to loan, by providing a safe place of deposit, ample security and fair rate of interest, as well as to aggregate and bring into use idle capital.

For the safety of deposits in this Bank are pledged its entire capital and resources, and also the personal liability of its Directors and Stockholders, as provided by Section 12 of the National Currency Act, approved June 3d, 1864, a greater security than that given by ordinary Savings Banks. Printed copies of the conditions upon which deposits are received, may be had upon application to the Bank.

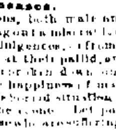
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary.



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering on to a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this sad situation thousands suffer until death closes the scene. Let parents, guardians, friends attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest the cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians in Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz. Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of those fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in a registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER. Consultations FREE

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian* jy6d&ptf

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

IT CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE,
NATHANIEL BELL,
A. L. WALLACE,
G. R. WARD,
Mrs. MONTGOMERY,
JOHN H. HOLLOWAY,
W. D. PORTER,
ROB'T RAMSEY,

And others in that vicinity

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan
